

iQ Pro Simple Pay Information

Description of product:

Simple Pay is a hosted payment page created by BASYS that can be utilized as an E-commerce solution. Merchants, most commonly, either create a 'Click here to pay now' link directly in their website or email the Simple Pay page link along with an invoice to a customer and direct them to follow the link to complete their payment.

Page Customization:

We can customize the look and feel of the page by adding a corporate logo and brand colors that the merchant provides. We have the ability to remove select default fields, add custom fields, or require fields to customize the Simple Pay page for each merchant. Additionally, we can add banner messages and redirect links upon payment completion.

Pricing:

The standard pricing for Simple Pay is \$15.00 a month and a \$99.00 one-time setup fee. The monthly fee is in addition to the standard iQ Pro monthly fee of \$15.00 and their other program costs.

Demo Link:

Here is the link to access the demo version of Simple Pay:
